## EXCERPTS FROM COURSE EVALUATIONS

*“I particularly appreciated the lectures. I found them to be both interesting and challenging due to the scope of the subject and the lecturer’s teaching ability.”*  
Phonetics, BA Linguistics year 1 (2019-2020), University of Amsterdam.

*“Marijn was a great lecturer and his teaching style worked very well for me.”*  
Phonetics, BA Linguistics year 1 (2019-2020), University of Amsterdam.

*“I appreciated the enthusiasm of my instructor, Marijn, and found my ability to think critically (which is required to investigate sound change and work through problems about articulation) improved.”*  
Transcription, BA Linguistics year 1 (2018-2019), University of Amsterdam.

*“Marijn is a great Professor; professional yet chill, a great teacher and always understanding of our problems with a subject matter. I would say he made a big difference in how enjoyable this course was, because it was demanding, but I never felt intimidated to ask him questions until I understood a concept.”*  
Phonology, BA Linguistics year 2 (2019-2020), University of Amsterdam.

*“I really loved the first five weeks of this course: the seminars were informative and very well organised. Moreover, our teacher Marijn was always ready to help and explained something once more. Thank you”*  
Speech Processing, BA Linguistics year 3 (2019-2020), University of Amsterdam.
